

Universal Drum Top Pads & Drum Socks Grainger Items: 5TR03, 24X076, 24X077

Issue: Potential safety hazards around 55 gallon drums where fluid leaks, drips, or spills are likely to occur.

Solution: A spill control plan should be developed with absorbent products readily available to control daily leaks and spills around your plant or to use in case of an emergency.

Description: OIL-DRI® Universal Drum Pads & Socks should be a part of every spill control plan. Drum socks can be used to contain non-aggressive fluid leaks and prevent spills from spreading on the floor while the drum top pads will absorb fluid leaks from pumps and dispenser cans.

Features & Benefits:

- **Universal Absorption** - Can be used on all non-aggressive fluids.
- **Custom Fitting** - Circular Drum Socks fit snugly around the base of a 55 gallon drum, eliminating the tripping danger of being kicked out onto the shop floor. Drum Top Pads keep the top neat and clean.
- **Incinerable** - Reduces disposal costs

Product Specifications:

- **Composition:** Sock skin filled with recycled cellulose. Pad made of chemically inert polypropylene.
- **Color:** Grey
