

Philips Advance SmartMate  
electronic ballast – 4ZZ35

# Sustainable solutions for healthcare applications

**Philips Advance sustainable solutions** can reduce energy consumption and minimize your carbon footprint

As concerns about energy utilization and its effect on global climate change continue to make headlines, healthcare administrators are scrutinizing their facilities to reduce energy consumption and minimize their carbon footprints while still maintaining staff productivity and patient comfort.

Choosing sustainable lighting solutions for your healthcare facility is an excellent way to reduce your energy usage and overall operational costs. Likewise, sustainable lighting solutions deliver the quality of light required for the care and comfort of your patients, while demonstrating your desire to reduce your impact on the environment.

**Make your facility more competitive in your marketplace:**

- With growing costs and shrinking budgets, reducing your electricity costs can free up resources for investing in other areas of patient care.

- Patients and patient advocacy organizations are adding sustainability to their evaluation criteria.
- Employees are interested in working for healthcare facilities that respect the environment, and they are more likely to promote your environmental position both at work and outside your organization.

As a recognized leader in lighting, Philips Lighting and Controls has been heavily involved in promoting sustainable practices through the development of award-winning, energy-efficient Philips Advance branded ballasts.

When you see the Smart Solutions logo, you can have confidence that you're choosing the most energy-efficient products from our broad range of lighting solutions, all of which are backed by 60+ years of industry experience and a shared commitment to building a brighter future.

## The power of Smart Solutions

Smart Solutions represent our commitment to providing you with the broadest and deepest selection of energy-efficient lighting solutions based on proven Philips Advance ballast technology. No matter what type of lighting you are looking to upgrade or maintain, you'll find solutions that can be applied in a variety of healthcare lighting applications.

Smart Solutions for Lighting Upgrades			
Grainger SKU	Philips Advance SKU	Philips Advance Product Description	Applications
5PTN4	IOPA-2P32-N	Optanium instant start — 1 or 2 F32T8 or F32T8/ES 120-277V	
36N040	IOPA-4P32-N	Optanium instant start — 3 or 4 F32T8 or F32T8/ES 120-277V	
4TLK5	IOPA-2P32-HL-N	Optanium high light instant start — 2 F32T8 or F32T8/ES 120-277V	Offices, general lighting
5KNJ2	IOP-3PSP32-SC	Optanium programmed start parallel — 2 or 3 F32T8 or F32T8/ES 120-277V	
5KNJ3	IOP-4PSP32-SC	Optanium programmed start parallel — 3 or 4 F32T8 or F32T8/ES 120-277V	
24W561	ICN-2S54-90C-N	Centium programmed start — 2 F54T5/HO 120-277V	Offices, restrooms, patient rooms, general indirect lighting applications, parking garages, workshops
1FYE5	ICN-4S5490C2LSG	Centium programmed start — 4 F54T5/HO 120-277V	
5KB41	IQT-2S32-SC	Mark 7 0-10V dimming programmed start — 2 F32T8 or F32T8/ES 120-277V	
5KB42	IQT-3S32-SC	Mark 7 0-10V dimming programmed start — 23 F32T8 or F32T8/ES 120-277V	
3VK03	REZ-2S32-SC	Mark 10 Powerline dimming programmed start — 2 F32T8 or F32T8/ES 120V	Offices, conference rooms
3VK04	REZ-3S32-SC	Mark 10 Powerline dimming programmed start — 3 F32T8 or F32T8/ES 120V	
3VK07	VEZ-2S32-SC	Mark 10 Powerline dimming programmed start — 2 F32T8 or F32T8/ES 277V	
3VK08	VEZ-3S32-SC	Mark 10 Powerline dimming programmed start — 3 F32T8 or F32T8/ES 277V	
1XWJ3	IOP-2P59-SC	Optanium instant start — 1 or 2 F96T8 or F96T8/ES 120-277V	Parking garages, workshops
4ZZ33	ICF-2S13-HI-LDK	SmartMate programmed start — 1 or 2 13W CFL 120-277V	
4ZZ34	ICF-2S18-HI-LDK	SmartMate programmed start — 1 or 2 18W CFL 120-277V	Accent lighting, general lobby areas, hallways
4ZZ35	ICF-2S26-HI-LDK	SmartMate programmed start — 1 or 2 26W CFL 120-277V	
1FYGI	71A5492-001D	Pulse start metal halide 150W M102/M142 Quad Tap kit	
4PL59	71A5692-001D	Pulse start metal halide 200W M136 Quad Tap kit	
5YG60	71A5792-001D	Pulse start metal halide 250W M138/M153 Quad Tap kit	Indoor/outdoor applications including parking lots and garages
4PL60	71A5892-001D	Pulse start metal halide 320W M132/M154 Quad Tap kit	
4PL63	71A6092-001D	Pulse start metal halide 400W M135/155 Quad Tap kit
