

PROPANE-POWERED POST DRIVER

One Person Operation: Drive Posts in Just Seconds!

This driver is the most convenient, user-friendly way to drive posts imaginable. It enables one person to drive posts into hard, dry, frozen, even rocky ground. And since it is 100% self-contained, it allows you to install posts in remote locations without the need for hydraulics or compressed air. It is powered by a 14 oz. propane tank, readily available from most hardware departments.

Features:

- Delivers up to 150 blows per minute
- Over 700 lbs. of driving force
- 6000 cycles per 14 oz. propane tank
- Full one-year warranty (parts and labor)
- Drives round posts up to 2 3/8" in diameter
- Custom driver attachments available: call for details

Benefits:

- Install dozens to hundreds of posts per tank
- Portable: take it anywhere
- No hydraulics or air compressor required
- Light weight! 45 lbs.
- Drive a variety of posts
- Easy, quick setup
- No lubrication required
