## Rittal Corporation – 19” Security Racks

Rittal’s 19” Security rack enclosure system is designed to support face-mount DVRs, monitors, power supplies and related security products while providing industry-leading weight load capacities and zero-U mounting to allow more equipment to be installed in smaller footprints — helping data center managers get the most out of their available space. Durable and scalable, the TS8 enclosure is the culmination of Rittal’s decades of innovation and leadership in modular enclosure technology.
