Rittal Corporation – Freestanding Industrial Enclosures

The Rittal TS8 is the premier modular enclosure available in the world today. The strength and flexibility of the TS8 come from its robust 16-fold, tubular frame that features a 25 mm hole pattern that allows components and accessories to be mounted horizontally or vertically and can support loads of up to 3,200 lb. Combined with its standard zinc plated mounting panel, the TS8 provides 15% more interior mounting space than unibody, NEMA-style enclosures. Engineered with the challenges of real-world applications in mind, the TS8 can protect critical equipment in even the most demanding environments, reducing downtime and increasing productivity.
