

# The Revolutionary Tool That Breaks Through Concrete Block.

# S.O.S.™ 3-TOOLS-IN-1

Pry Bar - Sledge Hammer - Hook

It's the tool that can save your life. The Special Operations Survival Tool (S.O.S.) from Council Tool combines a pry bar, a sledge hammer and a super-hard hook into one dynamic tool.

The hook end actually breaks through solid concrete block. Constructed of forged alloy steel, it's been heat-treated for extra strength and durability. Use it as a battering ram to get into a room for a rescue...or when you have to get out of a dangerous situation fast.
