

E2D LED DEFENDER® ULTRA

ULTRA-HIGH DUAL-OUTPUT LED

Model Number: E2DLU-A

UPC Number: 084871321242

The E2D LED Defender Ultra is a compact, dual-output self-defense flashlight that boasts an impressive 500 lumens of white light on its high setting--enough to temporarily overwhelm the dark-adapted vision of an aggressor. This blinding, tactical-level light, shaped by a TIR lens that creates a beam with plenty of reach and enough surround light for peripheral vision, is always just a click away in high-stress situations, thanks to ergonomic tactical tailcap switching. The E2D LED Defender Ultra's virtually indestructible LED also produces five useful lumens of light output for general use and tasks where 500 lumens of light may be overkill. To enhance its self-defense capabilities, the flashlight features SureFire's crenellated Strike Bezel® and a scalloped tailcap, both of which pack a wallop should 500 lumens of blinding light not be enough to convince an attacker to walk away. You get all this self-defense capability in a lightweight but strong Mil-Spec-anodized aluminum body just over 5 1/2 inches long.

FEATURES & BENEFITS

- Virtually indestructible dual-output LED produces two useful outputs: 500 & 5 lumens
- Total Internal Reflection (TIR) lens produces tightly focused beam with reach and enough surround light to accommodate peripheral vision
- Crenellated Strike Bezel® and scalloped tailcap provide enhanced self-defense capabilities
- High-strength aerospace aluminum body, Mil-Spec hard-anodized for extreme durability
- Ergonomic tactical tailcap switching for instant access to max output in high-stress situations
- Includes high-energy 123A lithium batteries with 10-year shelf life
