

EVlink™

Commercial charging solutions

Fleet and commercial customers rely on charging solutions that **offer convenient public and private access** and are suitable for wall or pedestal mounting. Advanced versions feature remote monitoring and control capabilities.

- > **Charge 2x faster** with a 30 Amp, Level 2 charging station
- > **Take advantage of off-peak hours** with Eco-Delay feature
- > **Universal compatibility** with any electric vehicle (EV)
- > **Auto-reset and integral ground-fault monitoring** for continuous safety and added protection after power outage.
- > **Remote monitoring and control** with Gateway
- > **Authentication** with Radio Frequency Identification (RFID) cards

Make the most of your energySM

Schneider
Electric™

Commercial Charging capabilities

Features

Protection:

- Integral ground fault protection
- Ground fault function tested before each charge cycle begins
- Auto restart after ground fault or main power loss

Metallic Enclosure:

- Outdoor, type NEMA® 3R/12
- Designed for outdoor and all season use
- Pedestal or wall mount
 - » Pedestal: 12.87" W x 56.00" H x 7.83" D
