

# Easy installation, space-saving, money-saving design

## SurgeLogic™ SurgeLoc

Advanced power and equipment protection  
for Square D™ NQ panelboards

- Uses standard-sized panels, requiring only 0 – 6" of increased panel size based on the number of breaker slots required
- Easy field mounting and retrofitting
- Custom bus bar, rails, dead front, and fasteners **not** required
- Eliminates need to install specialized hardware
- Reduces the overall cost of adding internal surge protection to any panelboard

Installs in **two minutes** or less – a significant reduction from the typical 20 minutes for an externally mounted SPD.
