

Introducing the...

"SNAPLOC"

E-TRACK SINGLE

#15X206

Snaplocs are a logistic strap anchoring system that can be easily installed anywhere you want a positive locking tie down for safe and secure cargo control.

1. Insert lever end

2. Insert opposite end

3. Release lever & Click

Great for pickups and tailgates!

USE SNAPLOCS EVERYWHERE!

Pickup's, Trailers, Vans, Truck Racks, Commercial Trucks, Garages, Ceilings, Walls, Floors, Warehouses and more!

- Positive locking
- Much safer than S-hook straps
- World's only E-Track single
- 3,000 lb. break strength (1,000 lb. working load)
- Impervious to weather
- Low profile
- Reversible for flush mounting
- Square hole design fits both round screws and carriage bolts
- Very easy and quick to install
- Made in U.S.A.
