

# **Material Safety Data Sheet**

HAZARD WARNINGS	RISK PHRASES	PROTECTIVE CLOTHING
×	Irritating to skin, eyes, and the respiratory system.	

Section I. Chemical Product and Company Identification			
Chemical Name	o-Vanillin		
Catalog Number	H0262	Supplier	TCI America 9211 N. Harborgate St.
Synonym	2-Hydroxy-3-methoxybenzaldehyde		Portland OR 1-800-423-8616
Chemical Formula	$C_8H_8O_3$		***************************************
CAS Number	148-53-8	In case of Emergency	Chemtrec® (800) 424-9300 (U.S.)
		Call	(703) 527-3887 (International)

Section II. Composition and Information on Ingredients				
Chemical Name	CAS Number	Percent (%)	TLV/PEL	Toxicology Data
o-Vanillin	148-53-8	Min. 99.0 (GC)		Rat LD <sub>50</sub> (intraperitoneal) 347 mg/kg Mouse LD <sub>50</sub> (oral) 1330 mg/kg

Section III.	Hazards Identification	
Acute Health Effects	Acute Health Effects  Irritating to eyes and skin on contact. Inhalation causes irritation of the lungs and respiratory system. Inflammation of eye is characterized by redness, watering, and itching. Skin inflammation is characterized by itching, scaling, reddeni or, occasionally, blistering. Follow safe industrial hygiene practices and always wear proper protective equipment whandling this compound.	
Chronic Health Effects	CARCINOGENIC EFFECTS: Not available.  MUTAGENIC EFFECTS: Not available.  TERATOGENIC EFFECTS: Not available.  DEVELOPMENTAL TOXICITYNot available.  There is no known effect from chronic exposure to this product. Repeated or prolonged exposure to this compound is not known to aggravate existing medical conditions.	

Section IV.	First Aid Measures
Eye Contact	Check for and remove any contact lenses. IMMEDIATELY flush eyes with running water for at least 15 minutes, keeping eyelids open. COLD water may be used. DO NOT use an eye ointment. Flush eyes with running water for a minimum of 15 minutes, occasionally lifting the upper and lower eyelids. Seek medical attention. Treat symptomatically and supportively.
Skin Contact	If the chemical gets spilled on a clothed portion of the body, remove the contaminated clothes as quickly as possible, protecting your own hands and body. Place the victim under a deluge shower. If the chemical touches the victim's exposed skin, such as the hands: Gently and thoroughly wash the contaminated skin with running water and non-abrasive soap. Be particularly careful to clean folds, crevices, creases and groin. COLD water may be used. Cover the irritated skin with an emollient. Seek medical attention. Treat symptomatically and supportively. Wash any contaminated clothing before reusing.
Inhalation	If the victim is not breathing, perform artificial respiration. Loosen tight clothing such as a collar, tie, belt or waistband. If breathing is difficult, oxygen can be administered. Seek medical attention. Treat symptomatically and supportively.
Ingestion	INDUCE VOMITING by sticking finger in throat. Lower the head so that the vomit will not reenter the mouth and throat. Loosen tight clothing such as a collar, tie, belt, or waistband. If the victim is not breathing, administer artificial respiration. Examine the lips and mouth to ascertain whether the tissues are damaged, a possible indication that the toxic material was ingested; the absence of such signs, however, is not conclusive. Seek immediate medical attention and, if possible, show the chemical label. Treat symptomatically and supportively.
0 4: 14	

Section V. Fi	ire and Explosion Data	3	
Flammability	Combustible.	Auto-Ignition	Not available.
Flash Points	>109°C (246.2°F).	Flammable Limits	Not available.
Combustion Products	These products are toxic carbon c	oxides (CO, CO <sub>2</sub> ).	
Fire Hazards	No specific information is available regarding the flammability of this compound in the presence of various materials.		
Explosion Hazards	Risks of explosion of the product i	n presence of mechanical impact: Not a n presence of static discharge: Not available regarding the risks of explosion.	

DSD/Pictograms (Eur and Instructions

SMALL FIRE: Use DRY chemicals, CO2, water spray or foam, LARGE FIRE: Use water spray, fog or foam. DO NOT use water jet.

## Section VI. Accidental Release Measures

Spill Cleanup Instructions

Irritating material.

In case of a spill and/or a leak, always shut off any sources of ignition, ventilate the area, and exercise caution. shovel to put the material into a convenient waste disposal container. Finish cleaning the spill by rinsing any contaminated surfaces with copious amounts of water. Consult federal, state, and/or local authorities for assistance on

## Section VII. Handling and Storage

Handling and Storage Information

IRRITANT. Keep away from heat and sources of ignition. Mechanical exhaust required. When not in use, tightly seal the container and store in a dry, cool place. Avoid excessive heat and light. DO NOT ingest. DO NOT breathe dust. In case of insufficient ventilation, wear suitable respiratory equipment. If ingested, seek medical advice immediately and show the container or the label. Treat symptomatically and supportively. Avoid contact with skin and eyes. Always store away from incompatible compounds such as oxidizing agents, reducing agents, alkalis (bases)

### Section VIII. Exposure Controls/Personal Protection

**Engineering Controls** 

Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit.

Personal Protection

Melting Point

Splash goggles. Lab coat. Dust respirator. Boots. Gloves. A MSHA/NIOSH approved respirator must be used to avoid inhalation of the product. Suggested protective clothing might not be sufficient; consult a specialist BEFORE handling

Vapor Density

Not available

**Exposure Limits** Not available

## Section IX. Physical and Chemical Properties

Light-yellow crystalline powder. Physical state @ 20°C Solubility Soluble in cold water, hot water

1.06 (water=1) Specific Gravity

Molecular Weight 152.15 Partition Coefficient Not available

**Boiling Point** 265 to 266°C (509 to 510.8°F) Vapor Pressure Not available 40 to 42°C (104 to 107.6°F)

Not available. Volatility Not available. Refractive Index

Critical Temperature Not available. Odor Not available.

Viscosity Not available. Taste Not available

## Section X. Stability and Reactivity Data

This material is stable if stored under proper conditions. (See Section VII for instructions) Stability

Conditions of Instability Avoid excessive heat and light.

Incompatibilities Reactive with oxidizing agents, reducing agents, alkalis (bases).

## Section XI. Toxicological Information

RTECS Number CU6530000

Routes of Exposure Eye contact. Inhalation. Ingestion. Skin contact.

Rat LD<sub>50</sub> (intraperitoneal) 347 mg/kg Toxicity Data

Mouse LD<sub>50</sub> (oral) 1330 mg/kg

Chronic Toxic Effects CARCINOGENIC EFFECTS: Not available. MUTAGENIC EFFECTS: Not available.

TERATOGENIC EFFECTS: Not available **DEVELOPMENTAL TOXICITY**Not available.

There is no known effect from chronic exposure to this product. Repeated or prolonged exposure to this compound is not known to aggravate existing medical conditions.

Acute Toxic Effects Irritating to eyes and skin on contact. Inhalation causes irritation of the lungs and respiratory system. Inflammation of the eye is characterized by redness, watering, and itching. Skin inflammation is characterized by itching, scaling, reddening,

or, occasionally, blistering. Follow safe industrial hygiene practices and always wear proper protective equipment when

handling this compound

## Section XII. **Ecological Information**

Ecotoxicity

Not available.

**Environmental Fate** 

Not available.

## Section XIII. **Disposal Considerations**

Waste Disposal

Recycle to process, if possible. Consult your local or regional authorities. You may be able to dissolve or mix material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber system. Observe all federal, state, and local regulations when disposing of this substance

## Section XIV. Transport Information

DOT Classification

Not a DOT controlled material (United States).

PIN Number

Not applicable.

Proper Shipping Name

Not applicable.

Packing Group (PG)

Not applicable.

DOT Pictograms

## Section XV. Other Regulatory Information and Pictograms

TSCA Chemical Inventory

This compound is **ON** the EPA Toxic Substances Control Act (TSCA) inventory list.

(EPA)

WHMIS Classification

WHMIS CLASS D-2B: Material causing other toxic effects (TOXIC).

(Canada)

205-715-3

EINECS Number (EEC) **EEC Risk Statements** 

R36/38- Irritating to eyes and skin.

Japanese Regulatory Data

Not available.

#### Section XVI. Other Information

Version 1.0

Validated on 6/26/1997.

Printed 2/25/2005.

## Notice to Reader

TCI laboratory chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our MSDS sheets are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated MSDS sheets for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, facial mask, fume hood). For proper handling and disposal, always comply with federal, state, and local
