

GENERAL:

Verse Series product consist of re-configurable soft, padded look 1.5" thick panel partitions for use with or without freestanding desk furniture, and for support of hang-on shelves.

Panels are available in 42", 60" and 72" heights and 24", 30", 36", 42", 48", and 60" widths. 42" and 60" high panels are also available in a 72" width.

CONSTRUCTION:

Corrosion Protection –

All exposed metal parts are suitably protected from corrosion by powder coat painting, or are inherently corrosion resistant.

Panel Frames –

Reinforcement frame consists of three, one inch square, steel tube bars mechanically fastened together to form the various frame sizes.

Panel Septum -

Provides visible barrier, structural strength, and noise reduction qualities. Consists of two sheets of 1/8" thick fiberboard mechanically fastened to an internal particleboard frame.

Fabrics –

Verse Plus (VP) Fabric covers both sides of above septums. The fabric is secured within the frame to the edges of the septum core by mechanical means.

Leveling Glides –

Included on all panels, glides utilize a 1" diameter plastic base, 2.5" metal stem with 5/16"-18 thread screws into the frame to provide height and leveling adjustment.

PANEL ACCESSORIES:

Wall Connector HBV-PWB1- Two mating channels, intended for connecting panels to a permanent wall.

QuickConnect Connectors HBV-QC180 and HBV-QC90

– Extruded aluminum connectors are used to create 2-way, 3-way, and 4-way connections. Two connector types will support all of these options in both same height and variable height configurations. Connectors are sold in pairs and are used at top and bottom of panels. Connectors add to the overall dimensions of the panel installation.

Panel-to-Worksurface Bracket HBV-PBS –

Secures panels to freestanding desk work surfaces and adds to overall panel rigidity.

Hanging Shelves HBV-VSH24,30,36,42,48,60 – Available

12 ¾" inch deep, in standard panel widths. Shelves must match panel width, and hang over the top of panels. Shelves are constructed of formed and powder coat painted sheet metal. Steel hanging brackets are included.

T-Base Stabilizing Foot HBV-TBASE –

Used to free-stand a single Verse panel, or to stabilize the end of a panel run, and is 18-3/4" long.

SHIPPING:

Fully assembled in a stretch wrapped package, two per carton when possible.
