

Prep Crew® workers have specialized strengths.

Pole-Compatible Tools

- Iron Horse™ 1847 • Work Horse™ 1840
- Sky Scraper® R089

Sky Scraper has a rigid 3-inch flat blade that works faster than bent blades. It fits comfortably in the hand for precision scraping either flat or edgewise. The tough wire in the Iron Horse brush delivers aggressive performance on gutters, roofs, storage tanks, floors. Durable polypropylene bristles make Work Horse perfect for scrubbing siding and decks. Use all three tools with extension poles, including the no-twist Sherlock GT® Convertible™, to reduce bending and reaching.

Coating

- Masonry Coater™ 1826 • Masonry Coater Jr.™ B1860

The strong tampico in Masonry Coater provides fast, thorough coverage with waterproofing, foundation, or roof coatings. Tampico/polypropylene mix in Masonry Coater Jr. provides high capacity, resists solvents, and maintains stiffness. Original pistol-grip handle reduces wrist fatigue. Jr. beavertail handle fits comfortably in the hand. Built-in bucket clip helps eliminate drips.

Tools with resumé in three languages

Hang Wooster Prep Crew tools on peghooks for faster turns. Their informative, trilingual packaging highlights features and benefits that dump bins can conceal.

HELP WANTED

Seeking hard-working tools of innovative sizes and shapes to provide faster, more thorough results on the job. Must have experience in surface prep. Aggressive performance a plus. Only candidates that demonstrate excellence in removal of flaking paint, rust, dirt, and scale need apply.
330-264-4440

WOOSTER®

PREP CREW®

Answers the Call

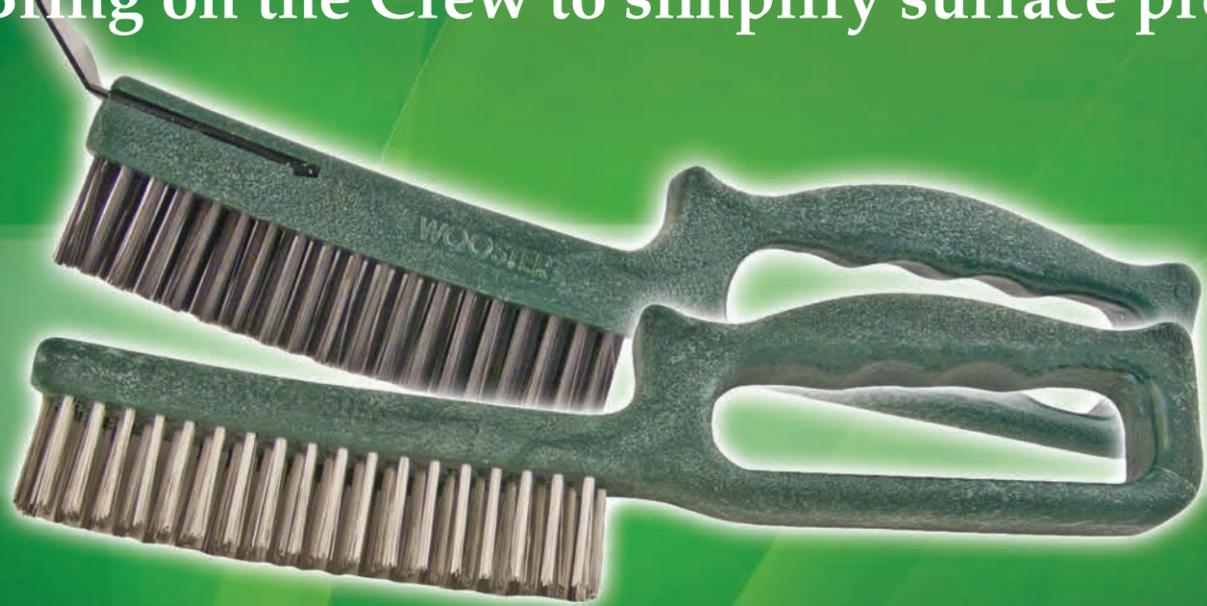

WOOSTER®

The Wooster Brush Company • Wooster, OH • Reno, NV • 800-392-7246 • www.woosterbrush.com

C-201005R 1/14

Bring on the Crew to simplify surface prep.

All Purpose + Narrow Surfaces

- **Longneck® 1820** • **Longneck with Scraper 1821** • **Longneck Stainless Steel 1835**
- Longneck brushes contain over 80 yards of wire for maximum performance. Knuckle-guard handle protects fingers. Better angle of attack reduces fatigue. Available in steel wire, steel wire with built-in 3-inch scraper, or stainless steel.

Corners

- **Corner Cleaner® 1823**
 - **Corner Cleaner Stainless Steel 1836**
- Pointed end attacks hard-to-reach areas. Full-size angled handle provides additional surface clearance. Molded thumb rest adds comfort and control. Stainless steel option is 100% corrosion resistant.

Detailed Areas

- **Little Rhino™ 1834** • **Top Brass™ 1833**
- Little Rhino features a rust-resistant steel scraper, 1½-inches wide, for prepping window frames, railings, and other small spots. Top Brass contains pliable brass bristles that resist corrosion and solvents and avoid scratching woodwork, furniture, ceramic tile, and aluminum. Both are a handy size, easy to carry along.

Every Crew Member Has a Special Skill

Carrying the full Prep Crew® assortment allows each tool to play off the others to increase sales. When customers come in for one brush, they can't resist leaving with a bag full of tools!

Take a "HANDS ON" Approach

Encourage sales by displaying Prep Crew® tools where customers can pick them up, feel the comfortable handles, and test the weight and balance. When these tools are within reach, they sell themselves.

One-Handed Scrubbing

- **Armadillo™ 1838** • **Ergo Wire Scrubber™ 1818** • **Industrial Wire Scrubber™ 1825** • **Super Scrubber™ 1828**
- The curved, sander-style handle on the Ergo Wire Scrubber contours to the palm, allowing users to push down firmly when cleaning. Industrial Wire Scrubber and Super Scrubber have a traditional rounded handle that is easy to grip. Armadillo flexes to conform to uneven surfaces while maintaining pressure for faster results.

Two-Handed Scrubbing

- **Prep-Plane® 1822** • **Wire Boss® 1824** • **Straw Boss® 1827**
- Like the woodworking tool it's named for, the Prep-Plane design uses both hands to reduce time on the job. Angled tip increases efficiency during back-and-forth motion. Both Wooster Boss brushes have long, knuckle-guard handles for hard-to-reach places. Apply pressure to the large oval head with your other hand for even faster results. Wire Boss delivers aggressive performance with 188 tufts of wire. Straw Boss has naturally strong tampico fibers.

Prep Crew® Universal Qualifications

Durable Polypropylene Handles

- Full size for better grip and added comfort
- Exclusive wrap-around "knuckle guard" design
- Molded finger grips add control, reduce fatigue
- Splinter-proof green handles made from recycled plastics

Aggressive Performance

- Each brush is packed with industrial-strength bristles
- Staggered tufts instead of rows eliminate rake marks
- Available in treated or stainless steel wire, brass, tampico, or polypropylene
