Electric Safe Lubrication

Z-Works Dielectric Grease Aerosol

This high performing dielectric grease protects and lubricates electrical contacts, o-rings, rubber and plastic components and prevents leakage around electrical connections.

Benefits:

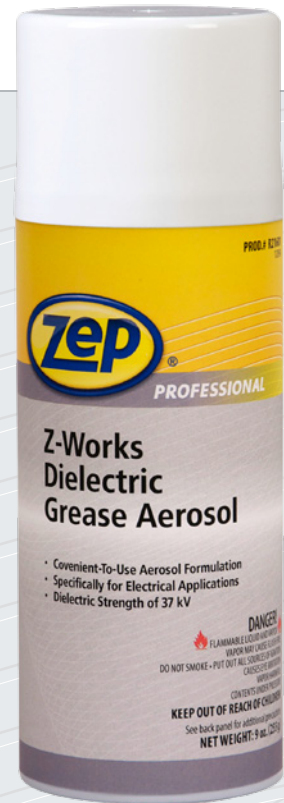

- Protects, lubricates, and waterproofs
- Extends component operating life
- Shields electrical components from the harmful effects of salt, dirt, corrosion and the elements
- Dielectric strength of 37 kV
- Convenient, ready-to-use aerosol with 360° valve (can sprays upside-down)

Applications:

- Airports/aviation services • Automobile dealerships • Automotive repair shops
- Electrical services • Heavy equipment maintenance • RV service centers
- Marinas • Printing industry • Schools and educational services
- Service stations • Small engine repair shops • Telecommunications

Directions for Use:

Disconnect unit to be serviced from all power sources. Use with adequate ventilation. If used in a confined space, ventilate well before re-energizing system. If applicable, drain all stored power from system to be serviced before applying product. Allow surfaces to reach room temperature before dispensing product. Spray evenly on surfaces requiring protection or lubrication. **Safety Precaution:** DO NOT apply while system is energized.

Base Code: R216
