Identifying WATER SAVING Opportunities

American Standard is focused on sustainability, performance and helping you save money. true sustainability is only achieved through great product performance—flushing the toilet twice or running the shower longer than normal, is not saving you water or money.

American Standard's broad portfolio of products not only reduce the amount of water consumed but also outperform the competition. As the performance leader, American Standard has more toilets that meet or exceed the industry's highest flush rating (by independent agency) and has the best warranties in the industry across all product categories.

BENEFITS OF WATER AUDITS

- A Water Audit can identify key areas within a facility that have high traffic use and/or have fixtures that have high flow rates.
- Older toilets can use as much as 3.5 gpf (gallons per flush) and drive considerable dollars to use.
- A Water Audit can also identify fixtures that are improperly working and expose opportunity for replacements.
- Added benefit that Grainger can offer to it's customers and key accounts to strengthen partnership.

To arrange a facility water audit for a customer site, please contact Ricky Gregg at 865-382-4713 or greggr@americanstandard.com

Go Green and Flush with Confidence

NEW VorMax® Technology

TOP TO BOTTOM CLEANING—VIRTUALLY EFFORTLESS

Getting your toilet clean is one of the nastiest jobs, especially those dirty hard-to-reach spots under the toilet bowl rim. The revolutionary design of the VorMax® toilet helps keep the whole bowl so much tidier, it makes top to bottom cleaning virtually effortless!

American Standard offers a full-range of water efficient toilets that are engineered to perform exceptionally well—which means, you can save water without sacrificing performance.

- A stylish selection of high-efficiency toilet (HET) models that flush clean using 20% to over 30% less water than standard 1.6 GPF models
- Virtually no clogs, no double flushes
- Fully glazed trap-ways
- Help in achieving green building ratings in remodeling and new construction
- The largest number of independently-tested, 1,000 gram maximum flush performance toilet models versus all other manufacturers
- The EverClean® surface
- Two- to 10-year worry-free warranties[‡]—the best in the business

* Source: IAPMO R&T Labs Test Report No. 109-141486-002, comparing VorMax against conventional under-the-rim-water-dispersal toilets from major retailers.

Faucets Engineered to be the Best

Water Efficiency with Beautiful Style

All of our bathroom sink faucets are WaterSense® certified for high performance and water efficiency. Utilizing 1.2 GPM* pressure compensating aerators (also available with 0.35 GPM, 0.5 GPM, 1.0 GPM, and vandal-resistant pressure-compensating aerators), our faucets save 45% more water over standard models.

American Standard Bathroom Sink Faucets Offer:

- A stylish selection of water saving faucets that use 45% less water over standard 2.2 GPM models
- WaterSense® certified
- Ceramic disc valves for a lifetime of drip-free performance and smooth handle control even in extreme temperature or hard water conditions
- Lead-Free† certified
- Exclusive Speed Connect® Pop-Up Drain
- Variety of durable finishes
- Limited lifetime warranty

* All lavatory faucets with 1.5 GPM maximum flow rate will be converted to 1.2 GPM maximum flow rate by October 2015.
† In compliance with Federal and State law.

Savings Without Sacrificing Performance

Exclusive FloWise®

Showerheads and Hand Showers

deliver an energizing, satisfying soak while reducing water usage

- Reduce water flow from 2.5 GPM to 1.5 GPM
- Up to 40% water savings over conventional 2.5 GPM showerheads
- Meet strict WaterSense® requirements to ensure great performance while saving water

All American Standard Water Saving Showers Offer:

- A stylish selection of water saving showerheads and hand showers that use 20%–40% less water over standard 2.5 GPM models
- Easy clean, no clog nozzles (select models)
- Pressure-compensating flow control device to ensure great performance throughout the pressure range
- Variety of stylish options available in tub/shower kits
- Limited lifetime warranty

PATENTED TURBINE TECHNOLOGY

pressurizes and spins the water into a spray that feels as great as a standard 2.5 GPM model while using less water.

Exceptionally Engineered

Eco-Friendly Metering Faucets

Our metering faucets are made of durable cast brass, able to withstand the rigors of high-use commercial installations, while delivering optimal water conservation. Metering faucets are great for public restrooms, with an automatic shut-off feature preventing unattended overflows and costly excess water usage.

Monterrey® Faucets

All American Standard commercial faucets feature cast brass construction for superior durability and performance. Pressure-compensating aerators deliver exceptional performance while ensuring optimal water savings.

Comprehensive Offering of Repair Parts

Our commitment to current and future users of American Standard products is best demonstrated by our comprehensive offering of repair parts available through Grainger. Users can access over 500 repair parts on Grainger.com®
