

EAN: 4013288225139
Part number: 05150110001
Article number: 9720

Size: 405x185x55 mm
Weight: 1241 g
Country of origin: CZ
Customs tariff number: 82041100

- Durable foam insert, each tool has its own place; two-coloured, missing tools will quickly be noticed
- High-quality, durable foam insert without chemical vapours
- Optimum fit for the best possible removal of the tools from the foam insert
- Water- and oil-repellent, low maintenance and easy to clean
- Protection of the tool from dirt and impact
- The Zyklop Speed ratchet combines five ratchet types in one.
- With flywheel design and slip-proof fast-rotating sleeve for extremely high working speed
- Freely pivoting ratchet head, push button release and left/right switchover

Durable foam insert; two-coloured for quick identification of missing parts; suitable for the Tool Rebel roller cabinet, equipped with one Wera Zyklop Speed ratchet 1/4" and a 36-piece accessories set.

Safe storage and quick overview

The tools sit securely in the foam thanks to precise contour cutouts, but are easy to remove. The carefully designed arrangement of the tools ensures space-saving storage and quick access to each tool.

Two-coloured foam insert

After removing the tool the light grey second foam becomes visible and therefore missing tools are quickly identified.

Fast movers

The Zyklop Speed ratchets are really fast movers. The gyrating mass design means that screwdriving is accelerated. The rotation-symmetric structure of the Kraftform handle and the free-turning sleeve reinforce this rapid twisting process, particularly when the ratchet does not engage due to too little resistance in the thread.

Pivots freely

The ratchet head pivots freely and can be locked into any defined position by using the slide switch that is positioned on either side. It is even possible to work in very confined and difficult-to-access areas with enhanced hand clearance. The predefined locking at 0°, 15° and 90°, both to the right and left, ensure safe working without any slipping of the ratchet head.

Simple direction change

All Zyklop Speed ratchets feature a thumbwheel that can be used to quickly and easily switch between clockwise and anticlockwise rotation, at any position. No complicated handling, no loss of time!

Zyklop "6 in 1"

1. Fine-tooth ratchet 2. Flex-head ratchet 3. Angle ratchet 4. Quick-release ratchet 5. Power ratchet 6. Screwdriver

Bit sockets with holding function for TORX® screws

The HF tools developed by Wera are ideal because they feature an optimised geometry of the original TORX® profile. The wedging forces resulting from the surface pressure between the drive tip and the screw profile mean that TORX® screws made according to Camcar Innovations, Michigan, USA specifications are securely held on the tool!

Bit sockets with retaining function for hexagon socket screws

The clamping of the screw is achieved by a flexible locking ball. The holding function is especially helpful in confined, hard-to-reach spaces, where there is no room for a second hand to secure the screw.
