An RB Metal Brace is Welded in Place to **Strengthen** the **Sides** and Reinforce the Entire Cabinet. This RB Bar Will Not Interfere with Using the Cabinet.

Two (2) Die Cast **LOCKING Handles** Engage the RB Bar to **SECURE THE DOORS** and Eliminate the Need for the Expensive and Troublesome Operating Rods that were installed on the doors in the past.

The Cabinet is Assembled at the Factory with Electric Welding and is Very Strong and Rigid. There are NO Rivets or Snaps.

As a Special Feature, a Hanger Bar is Welded to one of the Shelves, so the Cabinet can be used as a Wardrobe Closet.

The Body of the Cabinet is Designed for all of the Adjustable Shelves 36" and over to have Five (5) Contact Points, Two (2) on each Side, Plus a Fifth (5th) Contact Bracket at the Center of the Back where it is Most Needed to Provide Extra Support for the Shelf. Shelves Adjust on 2" Centers and will Support 160 lbs Evenly Spaced.

Each Adjustable Shelf 36" and wider has a Fabricated Stiffener Welded to the Underside for Increased Load Bearing Capacity.

Plastic Glides are Attached to Elevate the Cabinet from Making Contact with the Floor and also Easier to Move for Cleaning, etc.
