ROCKSOLID® HEAVY DUTY CLEANER

DESCRIPTION AND USES

RockSolid® Heavy Duty Cleaner is formulated to clean grease and oil stains on concrete, brick and masonry. It also prepares surfaces for finishing by promoting adhesion when staining, sealing or coating. RockSolid Heavy Duty Cleaner is suitable for interior and exterior use and is safe to use near grass and plants.

RockSolid Heavy Duty Cleaner is suitable for use on garage floors, basements, driveways, carports, patios, walkways and pool decks prior to staining, sealing or coating. It can be used on freshly poured concrete.

PRODUCT FEATURES

- Removes oil, grease, tire marks, dirt and stains
- Cleans surface prior to sealing
- Designed for use on concrete and masonry

PRODUCT

SKU	DESCRIPTION (1 Gallon)
293422	Heavy Duty Cleaner

PRODUCT APPLICATION

READ ALL INSTRUCTIONS CAREFULLY BEFORE STARTING PROJECT

SURFACE PREPARATION

Proper surface preparation is critical to achieve best results. Wipe up excess oil and grease spots. Scrape and sweep away dirt and loose contaminants on the surface.

MIXING INSTRUCTIONS

Dilute Heavy Duty Cleaner 1:1 - 1 gal. (128 Oz.) cleaner in 1 gal. (128 Oz.) of water for general purpose cleaning. For cleaning painted floors, dilute 10:1 -10 cups (80 Oz.) water and 1 cup (8 Oz.) cleaner. Stir diluted solution thoroughly. Avoid splashing.

HEAVY DUTY CLEANER +	WATER =	CLEANING SOLUTION
Full	0 Oz.	Tough Stains
128 Oz.	128 Oz.	General Purpose
80 Oz.	10 Oz.	Painted Surfaces

PRODUCT APPLICATION (cont.)

APPLICATION

Use only when air (ambient) temperature is between 50-90°F (10-32°C) and the relative humidity is below 85%. Pour diluted mixture of RockSolid Heavy Duty Cleaner onto the entire floor. Allow to soak into the surface for 20 minutes (longer soak times may be necessary for removal of curing compounds). Mist the surface as needed to keep it damp. Work into the surface with a stiff bristle broom.

Rinse the surface thoroughly with water or power wash to remove all cleaner residue. Note: If cleaner dries before rinsing, apply more cleaner and then scrub and rinse. Use a squeegee or broom to remove excess water from the surface. A wet/dry shop vacuum can be used. Repeat the application as needed for hard-to-remove stains.

COVERAGE

Each gallon will cover up to 200 square feet per gallon.

DRY TIME

Dry time is based on 70°F and 50% relative humidity. Allow to dry for 24 hours before staining, sealing or coating.

CLEAN-UP

Wash tools and equipment with soap and warm water. Properly dispose of all soiled rags and protect unused product from freezing.

DANGER: CAUSES BURNS TO EYES, SKIN AND IS A RESPIRATORY IRRITANT. HARMFUL IF SWALLOWED.

KEEP OUT OF REACH OF CHILDREN.
