CLASSIFICATION

Low Frequency Floor Finish

PRODUCT DESCRIPTION

FaciliPro Gemini Pro is a durable floor finish for use on resilient and other type natural and man-made floors.

USE

FOR INDUSTRIAL USE ONLY
KEEP FROM FREEZING

DIRECTIONS FOR USE

Full Strip Preparation: Strip the floor with an Ecolab stripper at recommended use dilution. Rinse well and let dry.

Scrub and Recoat Preparation: Deep scrub with an Ecolab alkaline cleaner using a green or blue pad. Rinse and let dry.

Sealing the Floor: A sealer is not required with *FaciliPro Gemini Pro* on most resilient floors. If a sealer is desirable due to floor porosity (e.g. terrazzo) or for protection against staining spills, apply one to two coats of an Ecolab sealer.

Application: *FaciliPro Gemini Pro* may be applied in either medium to heavy or thin coats, depending on the application technique. Coverage: 2000-4000 sq. ft./gal. (49-98 m²/L).

Maintenance: Dust mop. Autoscrub or damp mop with an Ecolab neutral cleaner. If desired, periodically burnish with a combination synthetic/natural blend pad. Prepare floors with an Ecolab cleaner/maintainer prior to burnishing will enhance the gloss response.

For service or additional information, call 1-800-35-CLEAN (352-5326).

PHYSICAL AND CHEMICAL PROPERTIES

Physical State	Emulsion
Color	Milky, White
Odor	Acrylic-like
pH	8.4 [Conc. (% w/w): 100%]

Ingredients:

Water	7732-18-5
Acrylic Polymers	Proprietary
Ethanol, 2-(2-ethoxyethoxy)-	111-90-0
Ethanol, 2-butoxy-, phosphate (3:1)	78-51-3

% P Formula ingredients contain not more than 0.1% Phosphorus, 1.3 g/L, (4.9 g/US gal) of recommended use concentration.
