| Part No.    | SP0465X-100   | SP0465X-125   |
|-------------|---------------|---------------|
| Material    | Brass         | Brass         |
| Inlet size  | Male 1" NPT   | Male 1" NPT   |
| Outlet size | Female 1" NPT | Female 1" NPT |

## **Features & Technical Specifications:**

- \* Precision brass check valve, high quality and long lasting
- \* 1.25" NPT male thread input, and 1.25" NPT female thread output.
- \* High precision check valve has a brass shaft, ensure low friction and resistance. Other brands have plastic shaft.
- \* Can be installed directly into the pump's discharge with a 1.25"NPT thread.
- \* This check valve does not need a nipple between the pump and check valve. Saves \$15.
- \* This can be installed directly on Hallmark Industries' 1/2HP, 1HP, 2HP, and 3HP pumps (with 1.25"NPT discharge).
- \* Spring loaded check valve with the rubber seat to ensure no leakage.
