

jalas® 8023 SLIP PROTECTION

Learn more

GRIP ON ICE AND SNOW

Anti-slip protection for icy or snow-covered surfaces. Ten replaceable steel studs provide good grip. Thermoplastic rubber (TPE) stays flexible down to -40°C/-40°F. Straps keep the protectors in place, and a reflective detail at the back improves visibility. Fits all JALAS® footwear. Choose a larger size for thick winter boots. The protectors are not antistatic or intended for construction sites, uneven ground, climbing or ladders. Remove indoors.

CHARACTERISTICS

- Excellent grip

FUNCTIONS

- Ten studs
- Easy to put on and take off, suitable for all shoes and boots
