

Tyson-850

Pallet Jack with Scale

5500 LBS, 48" x 27"

SKU: 555002

Description

The 5Seconds Tyson-850 Hand Pallet Jack with Scale combines powerful material handling with precise weighing, making it the perfect choice for warehouses, shipping docks, and logistics operations. With an integrated digital scale, operators can lift, move, and weigh pallets in one smooth motion—saving time and improving efficiency. Built with a durable steel frame, a reliable BF pump, and an ergonomic rubber handle, the Tyson-850 ensures accuracy, comfort, and long-lasting performance. Designed with durable steel construction, a precision hydraulic pump, and a high-visibility digital display, it ensures accuracy, durability, and convenience in every use.
