Two (2) Die Cast
LOCKING Handles
for **SECURITY**
and **Convenience**

A quality Cabinet produced with long lasting US materials by experienced Tennessee Steel Cabinet makers.

Assembled by electric welding for strength and rigidity.

Shipped set up ready for storage.

All parts are fabricated with extra bending for safety and maximum carrying capacity.

Ideal dimensions provide multi-purpose clean, secure storage in a Residence, a Business, or a School.

Shelves are welded in place at different intervals for efficient storage.

Plastic glides are attached at the Factory to elevate the Cabinet from making contact with the floor, and also easier to move for cleaning.

There is never enough storage space, and Utility Cabinets never go out of style.

Steel Cabinets USA, Inc.
